The screenshot displays the abcOnline CMS Webmaster interface. At the top left is the 'abc' logo. Below it, the text 'ONLINE' is visible. The interface includes a navigation menu on the left with items like 'Categories', 'Define Structure', 'Menus & Modules', and 'Footer'. The main content area is titled 'Main: Define content for : Home - Basketball (1)' and contains several dropdown menus for 'Select structure', 'Select First Menu Level', 'Select Second Menu Level', and 'Select module on Main'. On the right side, there are 'Delete' and 'Save' buttons. The interface also features various checkboxes and text fields for configuring module attributes and list attributes.

Menus change color to show what is selected. It is possible to choose «Menu» or «Modules» to make navigation quicker.

Buttons move with page, and can also be displayed at bottom of page.

Social Media options are available, including Facebook and Twitter.

3D look for fields and buttons.

New Social Media options to control use of Facebook/Twitter etc Like and Share buttons (And link to abcOnline-CMS FB page is shown)

Checkboxes (and Categories) appear and disappear depending on type of module chosen (e.g. Menuspecific module automatically removes Category-checkboxes)

Content

Probably our most popular sport, basketball attracts approximately 40 participants for weekly practices at Holmes Junior High in Davis between December and March.

Coach Mike Inchausti has been our leader for several years now. He is ably assisted by Laura Hall, Dave Foos, Steve Mahon, Sean Murphy, and others.

Each year our teams do better and better at the Special Olympics Northern California Basketball tournaments!

**Our Basketball Team Manager is Steve Mahon.**
